

Campbell Primary School Modernisation Newsletter

The modernisation of the Campbell Primary School supports the ACT Government Education Directorates Strategic Plan to deliver schools for a growing community with a focus on 21st century learning environments.

The works will uplift the existing space with enhanced outdoor learning environments with the construction of a new 2 storey learning community and a new 1 storey learning community central to the school grounds to cater for up to 450 students.

A key approach to this in both planning and delivery will be the maximisation of school safety and minimizing the disruption to the local school environment during the works.

Site Works

LC1

- Set out work and high-level track install 50% complete
- External Framing 20% complete

LC2

- Steel frames and truss install 80% complete
- Façade works commencing tomorrow

LC3

- Structural concrete works 95% complete
- Steel frames under fabrication and install to commence on Monday

EXTERNAL WORKS

- Under boring for electrical and hydraulic works progressing

Community Engagement / Sustainability Initiatives

- LL Forman Capri and her baby Opal came for a site visit this week! Opal must have felt very comfortable being on site as she slept through all the construction works.
