

SCHOOL CAPTAINS OF 2021

By Matthew Featherstone

On Thursday the 18th of February at approximately 9:30 the speeches for school captaincy were given. In the end Isaac and Matilda won the school captain positions, and Meelis and Sofia won the vice school captain positions.

Some people said they voted for Isaac because of the free icy poles, of which will hopefully arrive this term. If you ask Isaac who's going to pay for the icy poles, he says juice popper bins will go around the school and the ten cents recycling collection depots will pay for the icy poles, but we will all have to help. This will contribute to the waste free Wednesday that Isaac is proposing to do.

In the same news, Matilda got school captain as well. Ever since Matilda was in year 2 she wanted to be school captain more than anything in the world. "Don't eat slugs" was one of Matilda's quotes in her school captain speech. Matilda is up to the responsibilities of school captain and has good sportsmanship skills.

Meelis secured a position as school vice captain after promising to uphold

the reputation of Campbell Primary School to protect our school by enforcing the school rules, as well as trying to make learning fun for all students at Campbell. Meelis announced that he would dedicate the rest of his time at Campbell Primary School to protect our great school.

Last but not least is Sofia. In Sofia's speech, she promised that she is open to ideas and knows how to find treasure. She will almost definitely create a petition for more cushions and bean bags in classrooms. Sofia announced that she will work harder as school captain than she ever has before on anything. Sofia also said that she can't convince the teachers for a water slide but will try to make school better than it has been before.

So in conclusion can Isaac, Matilda, Meelis and Sofia uphold their promises that won them places as school captains and school vice captains?

Autumn

By Gretchen Creighton

*Leaves turning green to orange,
cold wind against my skin, trees
bare with no leaves that are
falling to the bottom, The nuts
with their nectar falling to
ground, now the nuts are fading
brown that's how we know
Autumn is coming round*

Book Review- Wings of Fire by Jacqui Hudson

I recommend the series **Wings of Fire** by Tui.T.Sutherland. Make sure you read them in order because if you don't, surprise surprise it won't make sense! This series is recommended for 9-year-olds and above, but if you're younger than 9, don't worry you'll soon be old enough!

Summary: This series is about dragons! A suspenseful tale about prophecies, dangerous queens and two-thousand-year-old dragons.

What I liked about the book: The suspense and wording
